

Marlish 150ml Canned Tonic & Mixer Range

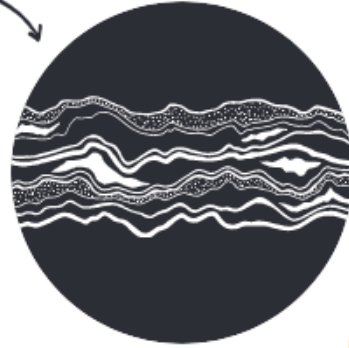

Available in April 2023

Over 8000 trees planted on Marlish Farm to support wildlife & capture carbon

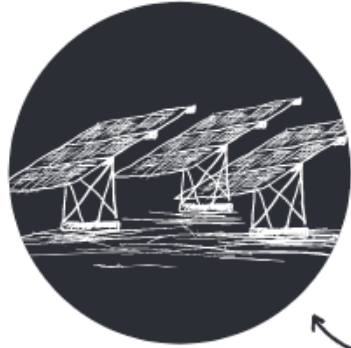

Produced and packaged at the source of our spring water on Marlish Farm, Northumberland

Our spring water takes 150 years to slowly filter through our rock and mineral strata

MARLISH

Produced using 100% renewable energy from solar and wind generation

100% Plastic free.
Our aluminum cans and glass bottles are infinitely recyclable

Our products are sugar free, low calorie with no artificial flavours

INGREDIENTS

Using our spring water as the basis for all of our soft drinks we are committed to combining it with only the finest natural ingredients. We have taken the time to research and develop the flavours in house.

As there is no sugar within our drinks, we work to ensure the flavours stand out on their own, by hand selection and extracting the essence from the best ingredients.
