

# MARLISH

## 330ML AND 750ML GLASS STILL & SPARKLING SPRING WATER

Sourced in the hills of Northumberland, our Spring Water takes over 150 years to slowly filter through the rock strata acquiring its pure quality and fine taste. We bottle our water on site at the source of our Spring on Marlish Farm to reduce road miles and emissions.

We are committed to sustainability; solar panels supply our factory with lighting, hot water, heating and cleaning and we have planted over 8,000 trees to support wildlife biodiversity.

Sustainably  
produced

Bottled at source  
in Northumberland

Naturally filtered  
spring water

Infinitely  
recyclable glass

**Our Still and Sparkling Spring Water benefits from a unique taste profile which is refreshing on its own or as the perfect accompaniment for food.**
