CASK CONDITIONING GUIDE

As brewers of Landlord, the UK's number one cask ale*, we are committed to championing cask ale and the pubs sector. To this end, training and supporting consistently high standards across the cask category continues to be our greatest focus.

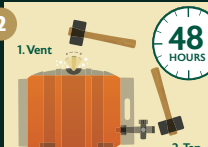

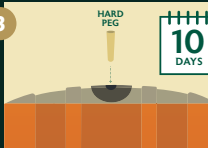

Our vision is to lead the category, set the benchmark for quality, and champion the standards that ensure every pint of Timothy Taylor's cask ale is served exactly as the brewer intended.

VERTICAL

	COOL DOWN Let the Cask settle and cool to cellar temperature (11-13°C). Allow a minimum of 5 hours (if you open the cask before 5 hours you will lose too much CO₂, which needs to be absorbed back into the beer).
	TAP & VENT Leave the valve open for at least 48 hours initially. Then close the valve and leave for 6 hours. Open the valve - if there is a hiss the beer is still conditioning, close and repeat for another 6 hours until there is no hiss, which means the beer is conditioned and ready to be served.
	SEAL IF NOT SERVING Once conditioned, our beer can be left sealed for up to 10 days before it needs to go on sale. This means you can tap and vent a few casks at the same time, put one on sale and then seal the others, always having another ready to go.
	CONNECT AND SERVE Connect and serve using a sparkler and branded Timothy Taylor's Glass. Always serve within 3 days for the best freshness and flavour.

HORIZONTAL

	COOL DOWN Let the Cask settle and cool to cellar temperature (11-13°C). Allow a minimum of 5 hours (if you open the cask before 5 hours you will lose too much CO₂, which needs to be absorbed back into the beer).
	VENT & TAP Vent with a hard peg, wiggling to slowly release pressure, then remove. Tap the cask leaving the hole in the shive empty for the first 24 hours. Clean the shive and insert a soft peg and continue to condition for a second 24 hours, releasing the pressure every 6 hours. Total conditioning time is at least 48 hours.
	SEAL IF NOT SERVING Once conditioned, our beer can be left sealed for up to 10 days before it needs to go on sale. This means you can tap and vent a few casks at the same time, put one on sale and then seal the others, always having another ready to go.
	CONNECT AND SERVE Connect and serve using a sparkler and branded Timothy Taylor's Glass. Always serve within 3 days for the best freshness and flavour.

Set amongst the rolling hills of East Sussex, Lakedown Brewing Co. is brewed from Sussex spring water drawn from under the 700 acre farm the brewery is set in and is powered by solar energy..

Owned by Roger Daltrey and his family, the brewery was established on a small scale in 2020, but after a demand quickly outstripped supply, went into full production, on a cutting edge, modern brewhouse in 2023.

Their 'no compromise' style of brewing has seen them quickly establish themselves as a key player in the craft beer sector and ambassadors of fantastic cask beer.

Gun Brewery can be found on Gun Hill, in the heart of the East Sussex countryside. Founded in 2015, our aim is simple: Inspired by brewing styles old and new, to make great beer, using the best ingredients. All our beers are brewed using our own spring water, drawn from deep below the wildflower meadows here on the farm. Most are vegan and many are also gluten free. Having won multiple Great Taste Awards over the years, in 2021 the Guild of Fine Foods awarded us the coveted Great Taste Producer status.

Brad

Gazz

Brad and Gazz started brewing beer in Brad's Dad's garage. Their early goal was simple - creating unique and exciting beers that they would want to drink themselves. Their passion turned into a business when they officially launched Tiny Rebel in 2012. The name "Tiny Rebel" symbolises their rebellious spirit and the "tiny"

scale of the brewery when they took their first steps. The success of their very first beers allowed them to expand from their garage setup to a bespoke brewing facility in Newport. Not so tiny. Award-winning red ale Cwtch was Tiny Rebel's first major success and it's just as popular today.
