CASK CONDITIONING GUIDE

As brewers of Landlord, the UK's number one cask ale*, we are committed to championing cask ale and the pubs sector. To this end, training and supporting consistently high standards across the cask category continues to be our greatest focus.

Our vision is to lead the category, set the benchmark for quality, and champion the standards that ensure every pint of Timothy Taylor's cask ale is served exactly as the brewer intended.

VERTICAL

	COOL DOWN Let the Cask settle and cool to cellar temperature (11-13°C). Allow a minimum of 5 hours (if you open the cask before 5 hours you will lose too much CO₂, which needs to be absorbed back into the beer).
	TAP & VENT Leave the valve open for at least 48 hours initially. Then close the valve and leave for 6 hours. Open the valve - if there is a hiss the beer is still conditioning, close and repeat for another 6 hours until there is no hiss, which means the beer is conditioned and ready to be served.
	SEAL IF NOT SERVING Once conditioned, our beer can be left sealed for up to 10 days before it needs to go on sale. This means you can tap and vent a few casks at the same time, put one on sale and then seal the others, always having another ready to go.
	CONNECT AND SERVE Connect and serve using a sparkler and branded Timothy Taylor's Glass. Always serve within 3 days for the best freshness and flavour.

HORIZONTAL

	COOL DOWN Let the Cask settle and cool to cellar temperature (11-13°C). Allow a minimum of 5 hours (if you open the cask before 5 hours you will lose too much CO₂, which needs to be absorbed back into the beer).
	VENT & TAP Vent with a hard peg, wiggling to slowly release pressure, then remove. Tap the cask leaving the hole in the shive empty for the first 24 hours. Clean the shive and insert a soft peg and continue to condition for a second 24 hours, releasing the pressure every 6 hours. Total conditioning time is at least 48 hours.
	SEAL IF NOT SERVING Once conditioned, our beer can be left sealed for up to 10 days before it needs to go on sale. This means you can tap and vent a few casks at the same time, put one on sale and then seal the others, always having another ready to go.

A big hitter of a beer, an Ian Botham standing defiantly at the crease. Brewed to celebrate Somerset CCC 100th anniversary in 1991 and still going strong.

A dark amber, strong premium bitter. Boasting a rich resinous hop nose and a malty depth of character with hints of chocolate and toffee, finished off with a warming fruitiness and a hint of sweetness.

👁 Deep Amber

👃 Toffee

👄 Fruity

First brewed back in 1986, Exmoor Gold was the first modern Golden Ale. Designed as a single-malt beer, Exmoor Gold was a stunning contrast to the traditional "brown" ales and coal-black Irish dry stouts of the day.

The colour of Chardonnay, Exmoor Gold brings together a subtle soft, caramel-tinged maltiness with citrusy fresh hop fruitiness. A beautifully balanced 4.5% Golden Ale, with a bittersweet finish and hints of citrus fruit weaving in and out.

👄 Refreshing hop

A light chestnut-brown session beer with a fresh, grainy, biscuity malt combined with a sprightly citrusy fruit centre and a whisper of chocolate from the pinch of chocolate malt in the mash.

First brewed in 1980 and judged Best Bitter in the country at the CAMRA beer festival at Alexandra Palace that year.

Brad and Gazz started brewing beer in Brad's Dad's garage. Their early goal was simple - creating unique and exciting beers that they would want to drink themselves. Their passion turned into a business when they officially launched Tiny Rebel in 2012. The name "Tiny Rebel" symbolises their rebellious spirit and the "tiny"

scale of the brewery when they took their first steps. The success of their very first beers allowed them to expand from their garage setup to a bespoke brewing facility in Newport. Not so tiny. Award-winning red ale Cwtch was Tiny Rebel's first major success and it's just as popular today.
