CASK CONDITIONING GUIDE

As brewers of Landlord, the UK's number one cask ale*, we are committed to championing cask ale and the pubs sector. To this end, training and supporting consistently high standards across the cask category continues to be our greatest focus.

Our vision is to lead the category, set the benchmark for quality, and champion the standards that ensure every pint of Timothy Taylor's cask ale is served exactly as the brewer intended.

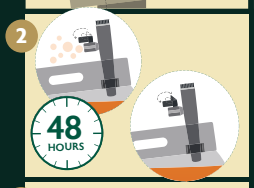

*Source: CGA by NIQ, via The Morning Advertiser Drinks List 2026

VERTICAL

COOL DOWN

Let the Cask settle and cool to cellar temperature (11-13°C). **Allow a minimum of 5 hours** (if you open the cask before 5 hours you will lose too much CO_2, which needs to be absorbed back into the beer).

TAP & VENT

Leave the valve open for at least 48 hours initially. Then close the valve and leave for 6 hours. Open the valve - if there is a hiss the beer is still conditioning, close and repeat for another 6 hours until there is no hiss, which means the beer is conditioned and ready to be served.

SEAL IF NOT SERVING

Once conditioned, our beer can be left sealed for **up to 10 days** before it needs to go on sale. This means you can tap and vent a few casks at the same time, put one on sale and then seal the others, always having another ready to go.

CONNECT AND SERVE

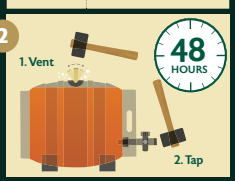

Connect and serve using a sparkler and branded Timothy Taylor's Glass. **Always serve within 3 days for the best freshness and flavour.**

HORIZONTAL

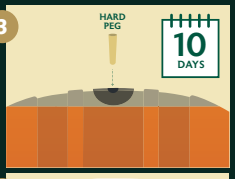

COOL DOWN

Let the Cask settle and cool to cellar temperature (11-13°C). **Allow a minimum of 5 hours** (if you open the cask before 5 hours you will lose too much CO_2, which needs to be absorbed back into the beer).

VENT & TAP

Vent with a hard peg, wiggling to slowly release pressure, then remove. Tap the cask leaving the hole in the shive empty for the first 24 hours. Clean the shive and insert a soft peg and continue to condition for a second 24 hours, releasing the pressure every 6 hours. **Total conditioning time is at least 48 hours.**

SEAL IF NOT SERVING

Once conditioned, our beer can be left sealed for **up to 10 days** before it needs to go on sale. This means you can tap and vent a few casks at the same time, put one on sale and then seal the others, always having another ready to go.

CONNECT AND SERVE

Connect and serve using a sparkler and branded Timothy Taylor's Glass. **Always serve within 3 days for the best freshness and flavour.**

For our comprehensive guide on cask conditioning see our tutorial videos and cask care brochure, or contact your Timothy Taylor's BDM:

Set amongst the rolling hills of East Sussex, Lakedown Brewing Co. is brewed from Sussex spring water drawn from under the 700 acre farm the brewery is set in and is powered by solar energy..

Owned by Roger Daltrey and his family, the brewery was established on a small scale in 2020, but after a demand quickly outstripped supply, went into full production, on a cutting edge, modern brewhouse in 2023.
Their 'no compromise' style of brewing has seen them quickly establish themselves as a key player in the craft beer sector and ambassadors of fantastic cask beer.
