CASK CONDITIONING GUIDE

As brewers of Landlord, the UK's number one cask ale*, we are committed to championing cask ale and the pubs sector. To this end, training and supporting consistently high standards across the cask category continues to be our greatest focus.

Our vision is to lead the category, set the benchmark for quality, and champion the standards that ensure every pint of Timothy Taylor's cask ale is served exactly as the brewer intended.

VERTICAL

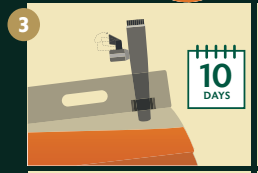

COOL DOWN

Let the Cask settle and cool to cellar temperature (11-13'C). **Allow a minimum of 5 hours** (if you open the cask before 5 hours you will lose too much CO_2, which needs to be absorbed back into the beer).

TAP & VENT

Leave the valve open for at least 48 hours initially. Then close the valve and leave for 6 hours. Open the valve - if there is a hiss the beer is still conditioning, close and repeat for another 6 hours until there is no hiss, which means the beer is conditioned and ready to be served.

SEAL IF NOT SERVING

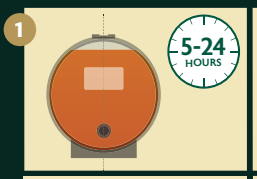

Once conditioned, our beer can be left sealed for **up to 10 days** before it needs to go on sale. This means you can tap and vent a few casks at the same time, put one on sale and then seal the others, always having another ready to go.

CONNECT AND SERVE

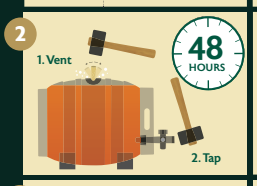

Connect and serve using a sparkler and branded Timothy Taylor's Glass. **Always serve within 3 days for the best freshness and flavour.**

VENT & TAP

Vent with a hard peg, wiggling to slowly release pressure, then remove. Tap the cask leaving the hole in the shive empty for the first 24 hours. Clean the shive and insert a soft peg and continue to condition for a second 24 hours, releasing the pressure every 6 hours. **Total conditioning time is at least 48 hours.**

Brad Gazz

Brad and Gazz started brewing beer in Brad's Dad's garage. Their early goal was simple - creating unique and exciting beers that they would want to drink themselves. Their passion turned into a business when they officially launched Tiny Rebel in 2012. The name "Tiny Rebel" symbolises their rebellious spirit and the "tiny" scale of the brewery when they took their first steps. The success of their very first beers allowed them to expand from their garage setup to a bespoke brewing facility in Newport. Not so tiny. Award-winning red ale Cwtch was Tiny Rebel's first major success and it's just as popular today.
